

2022 BrushMaster BM-T4E

Electronically controlled ZTR steering for simple, efficient, super responsive operation.

Powered by Yanmar liquid cooled 72 HP turbo diesel engine.

Clears heavy brush and trees up to 4" diameter, on terrain up to 32°.

ABOUT

The BrushMaster stands in a class of its own. This heavy duty brush clearing monster can devour brush and trees up to 4" in diameter in 88" swaths, leaving beautifully clear terrain in its wake. Electronic ZTR steering means you can steer around trees and other material that you want to keep intact without leaving your work area. Haul away heavier logs and branches with the included power winch. Clear more land faster with the Kut Kwick BrushMaster.

CORE SPECIFICATIONS:

- ✓ 88" Cut Width, 4" to 10" Manually Adjustable Cut Height
- ✓ Dual Speed Propulsion
- ✓ 9,000 lb power winch (18,000 lbs when used with included block and tackle kit)
- ✓ SAE J1040(c) ROPS (Roll Over Protection System)

Available Options

- Cab Protection Enclosure
- Air Conditioning
(Requires Cab Protection Enclosure)

Safety

- Operator positioned rearward to allow for max visibility and safety
- ROPS SAE-1040(c)
- Lanyard connected kill switch
- Brake engages upon engine shutdown
- Patented tip-up stop to prevent rearward rollover

General Info

- Clears heavy material up to 4" diameter
- Dimensions: 162"L, 93"W, 105"H
- Base Wt: 6,500 lbs, fully optioned 7,100 lbs
- Ag-tread 44x18.4-16.1", 8 ply
- Front Casters: 19x6" puncture proof
- Dual speed propulsion
- 9,000 lb rear mounted power winch (capacity doubles to 18,000 lbs when used with included block and tackle kit)

Komfort Kontrols

- Designed to decrease operator fatigue
- Electronic joystick controls
- Faster response, increased efficiency
- Adjustable for maximum comfort & productivity
- Zero-turn-radius (ZTR) operation

Cutter Deck

- 88" cutting width
- Adjustable cutting height, 4" to 10"
- Front mounted, rear discharge
- 3 hydraulically driven, heavy duty 1/2" blades
- Designed for clearing heavy brush up to 4" diameter

Engine

- 72 HP Yanmar water cooled turbo diesel
- Tier 4 Final EPA
- Designed for continuous brush clearing
- Special air filter design for use in extreme conditions
- Dual deck mounted fuel tanks for all-day mowing
